EXPERIENCE THE SPACE

NORMAN®
SHUTTERS. BLINDS. SHADES

SHEER INNOVATION

Soft like drapery and delicately architectural, SmartDrape™'s undulating sheer and fabric vane construction is specially made to bring you style, versatility, and seamless indoor-outdoor living. Whether on extra wide windows, patio doors – or just about any window or door in the house - SmartDrape™'s award-winning design echoes the look of soft fold drapery and provides the utmost in privacy and light control, while helping you to get the most out of your space in style. Winner of Red Dot “Best of the Best” Award.

best of the best

A woman with long brown hair in a ponytail, wearing a blue sleeveless top, is looking out a window. She is smiling and has her hand on the edge of light blue, vertically pleated curtains. The background shows a blurred interior space with a doorway.

SHEER JOY

Sometimes window coverings can seem like a barrier between you and the outside. Navigating them can feel like a chore, and has led people to use their outside spaces less frequently, or abandon their use altogether. SmartDrape™'s unique individual vane construction lets you walk through the shade whether it's opened or closed, helping to better integrate your spaces: Your room suddenly feels bigger, you enjoy more meals al fresco, you get around to setting up a TV outside.

SHEER SAFETY

Go from a sheer to solid fabric with a simple twist of the wand; open or close the vanes completely by sliding the wand across the shade. The award-winning design is WCMA certified “Best for Kids” and free from pull cords that can be a strangulation risk for young children and pets. SmartDrape™ is a practical, family-friendly solution that’s also brimming with sophistication and style.

SHEER CONTROL

Be in control of your window coverings, not the other way around. SmartDrape™ is engineered to be low maintenance and a joy to operate. Built with practical features you can count on, including its convenient and safety-certified cordless design, a specially designed headrail that minimizes light gaps, and a gallery of elegant low maintenance fabrics that are easy to clean.

SHEER LIVING

The impetus for SmartDrape™'s “walk-through” design extends much deeper than convenience. It is also based on our desire to help people re-experience their space, and find solutions to the emergent needs of modern living. SmartDrape™ encourages mobility and airflow while offering optimal light control and privacy.
